LOADS

Ensure you have the appropriate days of supply (DOS) on hand or on order of your basic and operational loads (see DA Pam 710-2-1, Chapter 7 for requirements) of CL I, II, III, IV, V, and VIII. Your prescribed load of CL IX (repair parts) should also be verified. Inspect your loads to ensure that:

- Shelf life has not expired
- Damage has not occurred
- Pilferage has not occurred
- Sufficient quantities on hand
- Load is complete
- Load is properly stored & sealed
